## *A Message of Good Will*

Looking back to the year 1940, it gives me much pleasure to again thank our many friends and patrons for the privilege of serving them in behalf of their garden. While I cannot personally attend to each individual article, it is my desire to send only such material as I myself would like to receive.

If we should ship you by mistake,  
Or in your order an error make,  
From irritation you'd be free  
If I knew you and you knew me.  
Or when your order is not on time,  
And we're so busy we send nary a line,  
You'd wait without anxiety  
If I knew you and you knew me.

Then let no doubting thoughts abide,  
Of firm good faith on either side,  
Confidence to each other give—  
Living ourselves, let others live.  
But any time you come this way,  
That you will call, we hope and pray  
Then face to face we shall see,  
And I'll know you and you'll know me.

May we invite your special attention to the arrangements of our \$1.00 Specials. This does not mean that only one selection must be made for \$1.00. You may choose but one item, say 35 cents, that is marked 3 for \$1.00, and 3 of those marked 10 for \$1.00, and the rest to fill out the total of a dollar. By this arrangement we keep the minimum order to \$1.00 at which we can afford to give you the liberal amount of plants.

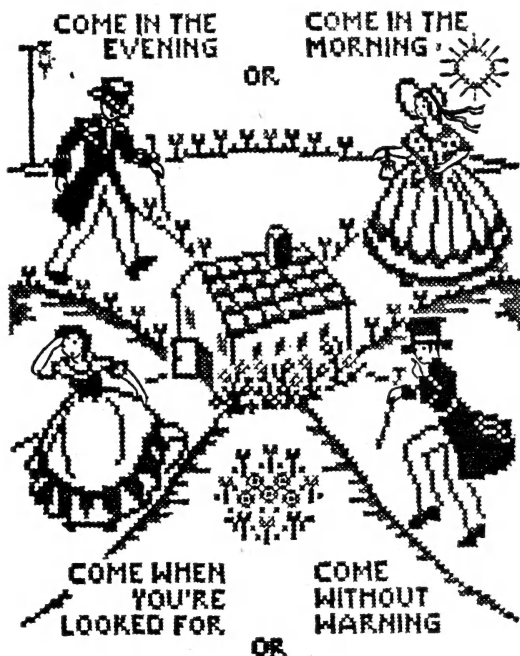

Yours always sincerely,

*Shady Lawn Nursery*

HUGO KIND

SHADY LAWN WELCOMES YOU ALWAYS  
WHETHER YOU COME ON BUSINESS  
OR PLEASURE.

**WE GUARANTEE** everything true to name and as represented. If not found so purchase price will be refunded. Beyond that we make no further assurance.

**PARCEL POST ORDERS.** Please note—We will ship any of the \$1.00 Specials anywhere in the United States for an additional ten cents on each Dollar Purchase up to \$3.00. Five cents each Dollar up to \$9.00. Orders \$10.00 and over, free packing and transportation.

When Ordering.....

Kindly **PRINT** your name and address.  
This request will be greatly appreciated.

**CALL AND CARRY CUSTOMERS.** It is our custom to have all stock ready during the planting season. If you wish you may call at any time to see what you are buying. Open on Sunday as well as week days. Visitors are always welcome, whether you come on business or pleasure.

**UPON RECEIPT OF PLANTS.** Unpack immediately. If shrubs or trees soak roots in a bucket of water for two hours. If other plants and they seem dry wet immediately. Azaleas require soaking as would trees and shrubs. Try and plant as soon as possible after this treatment.

**PLANTING.** You will note by the root system the depth the plants had been before digging. Plant the same depth. Do not use chemical fertilizer at any time this season. This can be used only the second year. You can use without harm rotted manure (not chicken or sheep manure), pulverized cow manure or bonemeal mixed with soil.

**AIR MAIL.** Why telegraph or phone. A letter mailed by air mail from Texas today reaches us tomorrow. Use air mail for quick service.

**CERTIFICATION.** Proper nursery certificates accompany each shipment. In such states that require special certificates these have also been applied for and same will be attached.

**COD shipments** will be accepted only on 20% deposits. When special prices are quoted, the shipment will go forward transportation collect.

**FOREIGN SHIPMENTS.** Canadian or any other foreign country will need a special permit from your Agriculture Department. Kindly have this attached to your order. Otherwise we cannot ship. Shipment Transportation Collect Only.

#### **PATENTED PLANTS:**

Had man, say a thousand years ago, developed the idea of patenting plants, I fear by this time he would be in a terrible snarl endeavoring to make a livelihood from God's own earth. Our Creator never intended, when He placed His children here that they take advantage of plants that only One Creator can bring to earth.

It is quite different to make up a piece of machinery or some other artificial device and hold a patent on it. Man thinks up many such devices and they may be called his own, but plants—no. Such creations, in my belief, are only loaned to mankind. So patented plants are not here listed.

2 1.00

**CRANBERRY.** The commercial large berry type. For wet places .....

8 1.00

**CAPE MYRTLE** (*Lagerstroemia*). This shrub is practically from the south but owing to constant culture in the north it has become extremely hardy. Our winters have reached as low as 17° below zero and a continual ground freeze of five feet. Still Cape Myrtle survived! Though it grows into small trees in the southern states with us it generally dies to the ground each winter. But, by July the new shoots have already reached a length of four to five feet, and at the ends of each form those immense hydrangea-like blooms. The main and most attractive color is that of a vivid pink. Sometimes called watermelon red. It flowers in blue, purple, watermelon red, pink and white. Blue is a new color and quite attractive. A specimen plant is growing in zoological garden, Detroit, Michigan, year after year. With such few flowers coming into bloom in July and lasting till frost this shrub will surely come rapidly to the front. The "looks" of the plant when shipped are very disappointing. The root habit is a dead looking lot of sticks as well as the top. If not understood it would be pronounced worthless. When newly transplanted it may require a whole season before it shows growth. In fact sometimes not until the second year does it show life. But when once in growth the lapse of time quickly pays for itself in its fascinating beauty. Practically every new shoot is alive with its immense 12" to 18" clusters of wavy crape flowers from which its name "Cape Myrtle" is derived. Culture is the same as any ordinary shrub. Price range as follows: Your choice of color.

2 Yr. Plants 2 1.00

4 Yr. Plants 1 1.00

2 Yr. Blue 1 1.00

**CRATAEGUS** (*Oxyacantha*). These are large thorny trees. Flowers white followed by attractive tiny apple shape fruits. Remaining on until fall. Used for background effect.

November 20, 1940.

Dear Mr. Kind:

The two Cape Myrtle arrived yesterday in very good condition. The packing around the roots was still wet, after the long journey. I notice that it cost 59c to send them and I believe I only sent 10c for the postage, so I am sending 50c in stamps because I know that Shady Lawn Nursery couldn't stay in business very long if they pay 59c postage on a \$1 order.

Thanks for your kindness.

MRS. P. J.,

Salt Lake City, Utah.

**CYCLAMEN** (*Neapolitanum*). Hardy. For outdoor culture only. Rosy pink flowers late summer. Excellent for rockeries and shaded place. Plant in woods soil. Bulbs. .... 2 1.00

*The Glory Lily (Rothchild)*

*Chinese Magnolia*

**Quantity Price**

**MOSQUITO PLANT (Vincetoxum or Cruel Plant).**

There are but two species known in America. A hardy plant that will grow anywhere. Derived its name from the fact that when an insect seeks its sweet fluid it becomes a prisoner. Or course it is not an insect eradicator. Very odd and a study for the plant lover. Ult. H. 1 ft. The small, star-shaped, white flowers appear in clusters of four or five at the terminal of each leaf. The leaves are small and a shiny emerald green of heavy texture. Very graceful and an artistic cut flower for unique effect. Botanist Bassett, who died twenty years ago at the age of 90, brought this plant into cultivation. Its origin is obscure. The plant has no bad habits and remains in one place without transplanting. Propagation by dividing.

During the half century of propagation we have a nice stock to offer. 2 large flowering clumps. .... 8 for \$3.00

Dear Mr. Kind:

I received my order of plants today and I want you to know I have never received any plants from any nursery in such good condition. They are all you advertised and I am greatly pleased. Thank you very much.

Sincerely yours,

R. P. C.,

Nyack, New York.

<b>ROSES (Moss) .....</b>	35c. each	3 1.00
These Roses are becoming popular again.		
<b>White Moss</b>		
<b>Pink Crested</b>		
<b>Yellow (Agnes)</b>		

*Rose (Radiance)***ROSES—Continued****Quantity Price**

**ROSES (Ramblers and Climbers).** 2 yr. strong field grown .....35c. each      3      1.00

**American Beauty.** Everblooming red.

**Black Boy.** Very dark, almost black.

**Dorothy Perkins.** Pink.

**Dorothy Perkins.** White.

**Dr. Van Fleet.** The finest pink, pointed Rose.

**Excelsia.** Brilliant red. Very good.

**Gardenia.** Color cream, semi-double.

**President Hoover.** Yellow and gold. Everblooming.

**Jacotte.** Cherry red.

**Jaquette.** Best yellow and amber, pointed Rose.

**Paul's Scarlet.** The most popular scarlet.

**Primrose.** Yellow; very pretty.

**Red Radiance.** Red. Everbloomer.

**Rosary.** Same as **Tausendschoen**. Dark pink.

**Spanish Beauty.** Large flowers; pink pointed Rose.

**Talisman.** Yellow and red. Everblooming, pointed.

**Tausendschoen** (Thousand Beauty). Shell pink.

**ROSES (Tree Type).** Your choice, any color. 5 ft. stems. See under: Not \$1 Specials.

**ROSES (Rouletti).** In presenting this handsome some tiny little Rose to the public we want to thank an unknown traveler who during a visit in Switzerland found a pretty pink Rose growing at the window of a Swiss flower lover. The plant so impressed the visitor that a few "slips" were brought to this country. It proved to be the true "Rouletti" Rose. Though at one time already on the European market, it was lost track of and not until this observing traveler saw it was it again placed before the public. There are two types. A tall growing variety and a dwarf growing. We have here the latter. Though the Rose is perfectly hardy and will make a fine Rock Garden plant, it is a wonderful house subject. Tiny pink double blooms all year.

## Quantity Price

## ROSES—Rouletti—Continued

These plants are out of 2¼ in. pots. They may be set in a 4 in. pot. Good garden soil, mixed with a spoonful of bonemeal, for each plant. Do not use chemical fertilizer. Any sunny window will grow good Roses.

Tiny dwarf shell pink Roses ..... 4 1.00

**ROSE (Red Oakinton).** In plain description it may be well termed a Red Roulette. A most beautiful Rose ..... Heavy plants each 1.00

**ROSE (White Pet).** Another very small pointed bud Rose. But a taller grower than the first two. Making an excellent background effect 1 1.00

**ROSES (Green).** Small green flowers ..... 1 1.00

**ROSES (Wicheriana).** Strictly a rose for embankments as it clings close to the ground. Flowers are single pink, free flowering and pretty ..... (12 for \$3.00) 3 1.00

**SAXIFRAGA.** R. P. Large glossy leaves lying near the ground. Many arbutus-like flowers on short stems. Excellent plant for the rock garden ..... 35c. each 3 1.00

**SCOTCH BROOM.** Yellow flowers. Ult. H. 4 ft. 3 1.00

**SEDUM (Sieboldi).** R. Here we have the best of all Sedums. The plant may best be described as a string of discs the size of a dime in stems of 10 in. They all terminate from one base, and during the hot weather turn a fiery red. The flowers are pink. Very suitable for rock gardens and hanging baskets ..... 4 1.00

**SEDUMS.** See **Rock Garden Selections.**

**SEDUM BRILLIANT.** Extremely hardy. Though not a new plant, it is well to place it to the front. It is an improvement over the old faded pink type. Will stand up under the most severe conditions with very little care and for this reason will thrive in cemeteries or in sun porch pots where watering is often forgotten. A plant left lying on the surface will live indefinitely. The flowers are a brilliant red and are borne on 15 in. sturdy stems. The umbels are eight inches across with handsome wax-like leaves all along the stem. 8 to 10 flower spikes at a time. Blooming size. .... 6 1.00

**SENSITIVE PLANT (Mimosa).** One of the outstanding trees or shrubs. Fern-like foliage. Flowers are blue and feathery. Very attractive. Ult. H. 14 ft. 3 ft. plant. .... 1 1.00

**SHRUBS** as follows. Popular garden varieties, your selection ..... 4 1.00

1—**Button Bush.** Round balls of white flowers hanging from the branches. Ult. H. 6 ft.

2—**Deutzia.** Pink. Ult. H. 8 ft.

3—**Honeysuckle Bush.** Pink, white. Ult. H. 7 ft.

4—**Honeysuckle (Fragrantissima).** Creamy white flowers in March. Ult. H. 6 ft.

5—**Shad Bush.** The earliest shrub to flower. Named by the Indians as shad come up the river when this is in bloom. Ult. H. 6 ft.

6—**Spice Bush.** Yellow flowers. Spring. Ult. H. 5 ft.

## *House Plants*

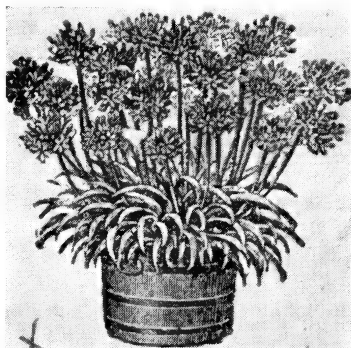

### A Selection of Plants of Easy Culture

In making this selection, we have chosen only such plants that are generally popular for indoor culture.

May we invite your special attention to the arrangements of our \$1.00 Specials. This does not mean that only one selection must be made for \$1.00. You may choose but one item, say 35 cents, that is marked 3 for \$1.00, and 3 of those marked 10 for \$1.00, and the rest to fill out the total of a dollar. By this arrangement we keep the minimum order to \$1.00 at which we can afford to give you the liberal amount of plants.

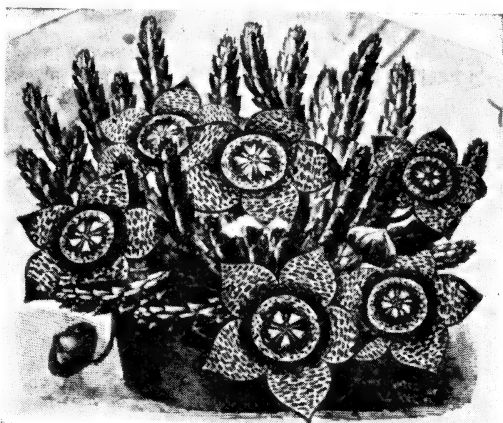

#### Quantity Price

<b>CALLA LILIES.</b> Yellow Callas make a lovely garden plant as well as pot effect. Bloom all summer and the spotted foliage is handsome. Large bulbs, white or yellow. ....			4	1.00
<b>CAMELIA.</b> Double. Red, pink or white. 14 in.			1	1.00
<b>CHINESE EVERGREEN (or Lucky Plant)</b> ( <i>Aglaonemas</i> ). These handsome plants have become very popular during the past few years due to their easy culture. They will grow without sun, in any home, and need not be potted, just place in water and they will take care of themselves. They may also be potted. Several plants to a pot will be more attractive than a single plant. For brackets as well as table decoration they are very artistic. If the stems become too long they may be cut to the desired length and again started in water. Roots will soon appear. The flowers are creamy white and an abundance of flowers appear in plume-like fashion. ....

*Piggy-Back Plant*

## Quantity Price

**PASSION PLANT (Vine).** Beautiful blue flowers. 2 1.00

This plant may be set outdoors in early spring. It will flower all summer. Though half hardy it will stand outdoors with protection. The pretty blue Waterlily-like flowers plainly show the following theological facts: The ten apostles, omitting Peter, and Judas, the traitor, the crown of thorns by the massive filaments; the stamens are five, suggesting the five wounds; above these rise the three nails; the curling tendrils represent the scourges; the digitate leaves, the head of a lance.

**PIGGY-BACK PLANT (Tolmia).** A most interesting useful house plant. The leaves resemble that of the primrose. On each leaf another tiny plant is formed. The plant seldom flowers. 4 1.00

**POINSETTIA.** Order early and grow them for Christmas. 2¼ in. pots ..... 5 1.00

**ROSES. (Roulettie).** See Page 35.

**SACRED LILY OF INDIA.** See Page 49.

**WAX PLANT or ICE PLANT (Mesembryanthemum).** Suitable for rock plant, hanging baskets or pot plant. Pretty pink flowers in great fusion all year. Easy culture. .... 4 1.00

EASILY UNDERSTOOD CULTURAL DIRECTIONS  
WITH ALL ITEMS

**VITAMIN B-1**

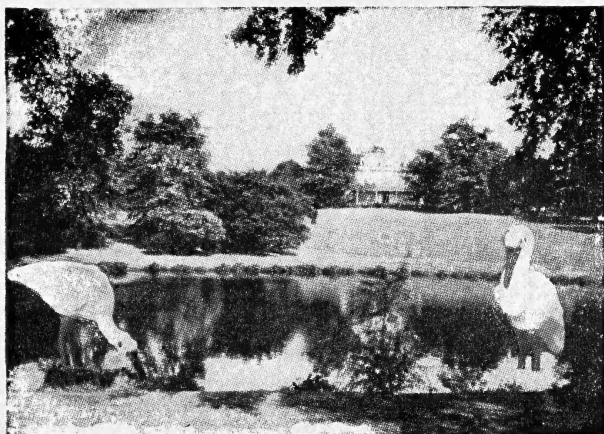

Genuine highest quality. Too well known to need further description. Good for 1500 gallons of water.

100 Milligrams — \$1.00

**S**HADY LAWN saw its beginning in 1860, not as a nursery but a fruit growing project. Carved out at that time from an Oak forest, the founder, Henry Newton, was farsighted enough to leave standing many Oak trees, some of them probably several hundred years old. Then in about 1875, the home grounds and roadways were beautifully lined out in Maple trees. Spacious roadways were artistically arranged; thanks to the founder for also planting trees upon the public highway at that time. In 1906 Shady Lawn was renamed Shady Lawn Nursery, Hugo Kind. Whereupon the grounds (35 acres) were planted in a large variety of garden and landscape plants and shrubs. From then on the grounds have been rearranged with pools, plantings and unusual ornaments. Visit Shady Lawn Nursery and stroll around under its always cool and breezing trees. You will find it different.

**Cranes in a Pond**

For several years we endeavored to procure garden birds that could be sold at a reasonable price and also made of such material that they can be left in the open without damage. Here we are offering two handsome birds made by an expert who has given them a living effect. White body, Chinese red bill. Legs and entire body including neck is reinforced with steel.

As pictured above: Figure on right, height over all 25 inches. Figure on left, height over all, 19 inches.

**EACH \$3.50. SET OF TWO. ONE OF EACH TYPE, \$7.00**

**THE LEADER, WILDWOOD, N. J.**
